ASTM International Technical Committee F14 on Fences

Scope

To prepare specifications, methods of test, and recommended practices for fences and related products, and the promotion and dissemination of knowledge related thereto. Areas of interest include, but are not limited to, security, protection, public safety and privacy.

The work of this Committee will be coordinated with other ASTM Committees and organizations having mutual interest.

Technical Subcommittees

- F14.10 Specific Applications and Other Fence Systems and Components
- F14.15 Gates
- F14.30 Rigid Polymer Fence Systems
- F14.35 Architectural Metal Fence Systems
- F14.40 Chain Link Fence and Wire Accessories
- F14.50 High Security Fences and Perimeter Barriers

Key Documents

- F1043 Standard Specification for Strength and Protective Coatings on Steel Industrial Fence Framework
- F1083 Standard Specification for Pipe, Steel, Hot-Dipped Zinc-Coated (Galvanized) Welded, for Fence Structures
- F2049 Standard Safety Performance Specification for Fences/Barriers for Public, Commercial, and Multi-Family Residential Use Outdoor Play Areas
- F2200 Standard Specification for Automated Vehicular Gate Construction

Quick Facts

Established 1973
Number of Members 150
Number of Standards 48
Global Participation 20 Countries represented
The standards are available in Volume 01.06 in the Annual Book of ASTM Standards
Meetings F14 meets twice each year, in conjunction with AFA FENCTECH and during October Committee Week
