

# ASTM International Technical Committee C15 on Manufactured Masonry Units

## Scope

The Committee shall prepare standards, relating to the manufacture of manufactured masonry units of inorganic materials, including but not limited to fired clay and shale, concrete, sand-lime, and coatings for such units.

The Committee shall prepare standards on the use of these units in site-built and prefabricated masonry elements.

Units for use as refractories are excluded from the scope of the Committee.

The Committee shall encourage research on the manufacturing and use of manufactured masonry units and masonry building elements of these units.

The work of this Committee will be coordinated with other ASTM committees and other organizations having mutual interest, especially ASTM Committee C-12 on Mortars and Grouts for Unit Masonry

## Technical Subcommittees

- C15.02 Brick and Structural Clay Tile
- C15.03 Concrete Masonry Units and Related Units
- C15.04 Research
- C15.05 Masonry Assemblies
- C15.06 Roofing Tile
- C15.07 Standards for Laboratory Accreditation
- C15.08 Terminology
- C15.10 Autoclaved Aerated Concrete Masonry Units
- C15.12 Alternative Masonry Materials and Related Units

## Key Documents

- C67/C67M Standard Test Methods for Sampling and Testing Brick and Structural Clay Tile
- C90 Standard Specification for Loadbearing Concrete Masonry Units
- C140/C140M Standard Test Methods for Sampling and Testing Concrete Masonry Units and Related Units
- C216 Standard Specification for Facing Brick (Solid Masonry Units Made from Clay or Shale)
- C1314 Standard Test Method for Compressive Strength of Masonry Prisms

## Quick Facts

**Established** 1937

**Number of Members** 280+

**Number of Standards** 71

**Global Participation**

16 Countries represented

**The standards are available in**  
Volume 04.05 in the *Annual Book of ASTM Standards*

**Meetings** C15 meets twice each year, in June and December
