

## ASTM International Technical Committee E31 on Healthcare Informatics

### Scope

The promotion of knowledge and development of standard classifications, guides, specifications, practices, and terminology for the architecture, content, storage and communication of information used within healthcare, including patient-specific information and medical knowledge. Standard also address policies for integrity and confidentiality and computer procedures that support the uses of data and healthcare decision making. The Committee's activities will be coordinated with those of other relevant committees and organizations internal and external to ASTM.

### Technical Subcommittees

- E31.15 Healthcare Information Capture and Documentation
- E31.25 Healthcare Data Management, Security, Confidentiality, and Privacy
- E31.35 Healthcare Data Analysis
- E31.90 Executive

### Key Documents

- E2369 Standard Specification for Continuity of Care Record (CCR)
- E2364 Standard Guide to Speech Recognition Technology Products in Health Care
- E2117 Standard Guide for Identification and Establishment of a Quality Assurance Program for Medical Transcription
- E1762 Standard Guide for Electronic Authentication of Health Care Information
- E1384 Standard Practice for Content and Structure of the Electronic Health Record (EHR)
- A11MASTM-BP-01-08 Portable Document Format-Healthcare (PDF) A Best Practices Guide

### Quick Facts

**Established** 1970

**Number of Members** 80

**Number of Standards** 32

**Global Participation**

13 Countries represented

**The standards are available in**

Volume 14.01 in the *Annual Book of ASTM Standards*

**Meetings** E31 meets in May
