

Meetings

ASTM Committee E53 meets once a year in conjunction with the NPMA National Education Seminar held every summer.

ASTM International welcomes all industrial and technical professionals with a desire to work toward further development of standards for E53.

Membership in Committee E53 provides the opportunity to:

- Network with industry professionals worldwide
- Have direct input into the development of new and revised standards
- Remain current on new and emerging technologies
- Receive a free volume of the Annual Book of ASTM Standards (print or virtual volume)
- Enjoy discounts on all ASTM publications
- Receive free subscriptions to ASTM Standardization News and ASTM eNews
- Benefit from reduced fees for attendance at ASTM symposia and technical workshops,
- Participate in informational webinars, and more.

About ASTM International

Committed to serving global societal needs, ASTM International positively impacts public health and safety, consumer confidence, and overall quality of life. We integrate consensus standards – developed with our international membership of volunteer technical experts – and innovative services to improve lives...Helping our world work better.

October 2021

www.astm.org/COMMITTEE/E53

Formed in 2000, Committee E53 focuses on the development, maintenance and dissemination of standard practices and performance standards for asset management systems and the lifecycle management of personal property assets.

The general area of interest of the committee will include standards to support all aspects of asset management, including systems for the management of industrial, federal, state and local government personal property, as well as educational and medical institution property assets. Committee E53's more than 150+ active members collaborate closely with the National Property Management Association (NPMA).

Subcommittees
