

How You Can Contribute to F15

Membership in Committee F15

ASTM International welcomes all with a desire to work toward further development of standards for F15.

Membership in Committee F15 provides the opportunity to:

- Network with industry professionals worldwide
- Have direct input into the development of new and revised standards
- Remain current on new and emerging technologies
- Receive a free volume of the *Annual Book of ASTM Standards* (print or virtual volume)
- Enjoy discounts on all ASTM publications
- Receive free subscriptions to *ASTM Standardization News* and *ASTM eNews*
- Benefit from reduced fees for attendance at ASTM symposia and technical workshops,
- Participate in informational webinars, and more.

The annual fee to be an informational or participating member of ASTM International is \$75 USD. Annual membership provides access to multiple technical committees at no additional cost.

Visit www.astm.org/JOIN and become an ASTM member today.

About ASTM International

Committed to serving global societal needs, ASTM International positively impacts public health and safety, consumer confidence, and overall quality of life. We integrate consensus standards – developed with our international membership of volunteer technical experts – and innovative services to improve lives...Helping our world work better.

Committee F15 Consumer Products

www.astm.org/COMMITTEE/F15

Formed in 1973, the ASTM International committee on consumer products develops standards and publications for the safety and performance of consumer products. Over 60 technical subcommittees focus on the development of test methods, practices, and guides for juvenile products, toys, playgrounds, pool safety, and more.

A diverse membership of about 1,000 technical experts from over 25 countries comprises the subcommittees that are a part of Committee F15.

Partnering for Consumer Safety

Of strategic importance is the Committee's relationship with the U.S. Consumer Product Safety Commission, an independent federal regulatory agency charged with addressing unreasonable risks of death and injury associated with more than 15,000 types of consumer products.

CPSC meets with industry and other interested parties to develop voluntary product safety standards and often adopts them as mandatory standards in regulations. Since their establishment, they have been heavily involved in the work of Committee F15 by attending subcommittee meetings and working with task groups.

F15 Key Documents

- F963 Standard Consumer Safety Specification for Toy Safety
- F404 Standard Consumer Safety Specification for High Chairs
- F1346 Standard Performance Specification for Safety Covers and Labeling Requirements for All Covering for Swimming Pools, Spas and Hot Tubs

“Consumers are critical to the standards development process and to ensuring that ASTM International delivers the best possible standards for all of us. Consumers, advocates from consumer-focused government agencies bring a unique and important lens of expertise and experience to standards work. As a result, many people are positively impacted by the consumer product standards that ASTM International develops, from toys to candles, sports equipment to playgrounds, to juvenile products and more.”
